Dear Chris and Danny,

Delwyn and I want to thank you both so very much for taking us both on as subjects for your treatments and the great care we were given.

We think you have made a very exciting breakthrough in scar remediation!

We must admit to our initial skepticism but burn scars that I have had for over 56 years, have all but disappeared after only a few treatments.

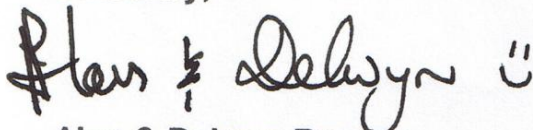

Delwyn's RSI pains were gone after a physical therapy session with Danny.

He has hands of magic!

It is hard to adequately express in words the difference you have made. We would both be delighted to serve as testimonials for your techniques and service.

Thank you again from the bottom of our hearts.

Sincerely,

Alan & Delwyn Breslau
